## 3rd Quarter 2024

### Advantage Solutions Reports 2024 Third Quarter Results and Remains on Track to Achieve Its Full-Year Outlook

*Delivered revenues and Adjusted EBITDA growth during a year of investment.*

*Transformation is progressing to enhance core service capabilities with greater operating efficiencies.*

*Remain committed to growing 2024 revenues and Adjusted EBITDA by low single digits on a continuing operations basis.*

**ST. LOUIS, Nov. 7, 2024** – Advantage Solutions Inc. (NASDAQ: ADV) (“Advantage,” “Advantage Solutions,” the “Company,” “we,” or “our”), a leading business solutions provider to consumer goods manufacturers and retailers, today reported financial results for the three and nine months ended September 30, 2024.

Unless otherwise noted, results presented in this release are on a continuing operations basis. Revenues for the three months ended September 30, 2024, were \$939.3 million, compared with \$1,019.7 million a year ago. Net loss from continuing operations was \$37.3 million, compared to a net loss of \$29.6 million for the third quarter of 2023.

#### 2024 Third Quarter Financial Highlights

- ▶ Organic revenues<sup>(1)</sup> increased by approximately 2% driven by strength in Experiential Services.
- ▶ Adjusted EBITDA was \$101 million, an 8.1% increase compared to the prior year.
- ▶ Management remains focused on disciplined capital allocation with debt and share repurchases of approximately \$80 million and \$13 million, respectively.

*“We continued to execute on our operational priorities, which resulted in organic revenue and Adjusted EBITDA growth in the quarter,” said Advantage CEO Dave Peacock. “At the same time, we are making progress on our transformation initiatives to enhance Advantage’s core capabilities and maximize operating efficiencies across the business. We remain committed to achieving our 2024 guidance and relentlessly serving our clients through our broad range of interconnected services.”*

(1) Excludes ~\$105 million and ~\$299 million in 3Q'23 and YTD 2023, respectively, related to the deconsolidation of the European JV, which occurred in 4Q'23.

#### Branded Services

- ▶ Experienced market softness in line with consumer packaged goods companies and the year-over-year effects of two intentional client exits earlier this year.
- ▶ Delivered improved execution and enhanced labor utilization enabled by transformation initiatives.

#### Experiential Services

- ▶ Strong client demand, including a shift in activity from the fourth quarter, drove double-digit events per day growth and an 11% increase in revenues year-over-year.
- ▶ Adjusted EBITDA increased by 41% due to strong event count growth and more efficient execution.

#### Retailer Services

- ▶ Revenue growth was due to increased activity in merchandising services, aided by a timing benefit from the fourth quarter.
- ▶ Focus on execution, talent deployment management and overall costs led to an 11% increase in Adjusted EBITDA.

## 3rd Quarter 2024

### Cash Flow and Balance Sheet Highlights

| Highlights   |                                       |
|--|---------------------------------------|
| (amounts in millions)  | Three Months Ended September 30, 2024 |
| Adjusted Unlevered Free Cash Flow & as % of Adjusted EBITDA <sup>(1)</sup> | ~\$69/67%                             |
| Capital Expenditures   | ~\$21                                 |
| Share Repurchases  | ~\$13 (~3.5 million shares)           |
| Repurchases of Notes and Term Loan Debt                                    | ~\$80                                 |
| Net Debt Ratio <sup>(1)</sup>  | 3.9x (Trailing 12-months)             |

(1) On a continuing and discontinued operations basis

- The Company had ~\$196 million of cash as of September 30, 2024.
- Targeting long-term net leverage ratio to be less than 3.5 times Adjusted EBITDA.
- Share repurchases are consistent with Advantage's capital allocation philosophy to maximize returns for equity holders by deleveraging its balance sheet and investing in the core business to fuel future growth. Management considers share repurchases to manage dilution from employee incentive compensation.

### **About Advantage Solutions**

Advantage Solutions is the leading omnichannel retail solutions agency in North America, uniquely positioned at the intersection of consumer-packaged goods (CPG) brands and retailers. With its data- and technology-powered services, Advantage leverages its unparalleled insights, expertise and scale to help brands and retailers of all sizes generate demand and get products into the hands of consumers, wherever they shop. Whether it's creating meaningful moments and experiences in-store and online, optimizing assortment and merchandising, or accelerating e-commerce and digital capabilities, Advantage is the trusted partner that keeps commerce and life moving. Advantage has offices throughout North America and strategic investments and owned operations in select international markets. For more information, please visit [YourADV.com](http://YourADV.com).

Included with this press release are the Company's consolidated and condensed financial statements as of and for the three months and nine months ended September 30, 2024. These financial statements should be read in conjunction with the information contained in the Company's Quarterly Report on Form 10-Q, to be filed with the Securities and Exchange Commission (the "SEC") on or about Nov. 12, 2024.

### **Forward-Looking Statements**

Certain statements in this press release may be considered forward-looking statements within the meaning of the federal securities laws, including statements regarding the expected future performance of Advantage's business and projected financial results. Forward-looking statements generally relate to future events or Advantage's future financial or operating performance. These forward-looking statements generally are identified by the words "may", "should", "expect", "intend", "will", "would", "could", "estimate", "anticipate", "believe", "predict", "confident", "potential" or "continue", or the negatives of these terms or variations of them or similar terminology. Such forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks, uncertainties and other factors which could cause actual results to differ materially from those expressed or implied by such forward looking statements.

These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by Advantage and its management at the time of such statements, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to, market-driven wage changes or changes to labor laws or wage or job classification regulations, including minimum wage; the COVID-19 pandemic and other future potential pandemics or health epidemics; Advantage's ability to continue to generate significant operating cash flow; client procurement strategies and consolidation of Advantage's clients' industries creating pressure on the nature and pricing of its services; consumer goods manufacturers and retailers reviewing and changing their sales, retail, marketing and technology programs and relationships; Advantage's ability to successfully develop and maintain relevant omni-channel services for our clients in an evolving industry and to otherwise adapt to significant technological change; Advantage's ability to maintain proper and effective internal control over financial reporting in the future; potential and actual harms to Advantage's business arising from the Take 5 Matter; Advantage's substantial indebtedness and our ability to refinance at favorable rates; and other risks and uncertainties set forth in the section titled "Risk Factors" in the Annual Report on Form 10-K filed by the Company with the SEC on March 1, 2024, and in its other filings made from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Advantage

assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

### Non-GAAP Financial Measures and Related Information

This press release includes certain financial measures not presented in accordance with generally accepted accounting principles ("GAAP"), including Adjusted EBITDA from Continuing Operations, Adjusted EBITDA from Discontinued Operations, Adjusted EBITDA by Segment, Adjusted Unlevered Free Cash Flow and Net Debt. These are not measures of financial performance calculated in accordance with GAAP and may exclude items that are significant in understanding and assessing Advantage's financial results. Therefore, the measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP, and should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that Advantage's presentation of these measures may not be comparable to similarly titled measures used by other companies. Reconciliations of historical non-GAAP measures to their most directly comparable GAAP counterparts are included below.

Advantage believes these non-GAAP measures provide useful information to management and investors regarding certain financial and business trends relating to Advantage's financial condition and results of operations. Advantage believes that the use of Adjusted EBITDA from Continuing Operations, Adjusted EBITDA from Discontinued Operations, Adjusted EBITDA by Segment, Adjusted Unlevered Free Cash Flow, and Net Debt provide an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing Advantage's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. Non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. Additionally, other companies may calculate non-GAAP measures differently, or may use other measures to calculate their financial performance, and therefore Advantage's non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Adjusted EBITDA from Continuing Operations, Adjusted EBITDA from Discontinued Operations and Adjusted EBITDA by Segment are supplemental non-GAAP financial measures of our operating performance. Adjusted EBITDA from Continuing Operations and Adjusted EBITDA from Discontinued Operations mean net (loss) income before (i) interest expense (net), (ii) provision for (benefit from) income taxes, (iii) depreciation, (iv) amortization of intangible assets, (v) impairment of goodwill, (vi) changes in fair value of warrant liability, (vii) stock based compensation expense, (viii) equity-based compensation of Karman Topco L.P., (ix) fair value adjustments of contingent consideration related to acquisitions, (x) acquisition and divestiture related expenses, (xi) (gain) loss on divestitures, (xii) restructuring expenses, (xiii) reorganization expenses, (xiv) litigation expenses (recovery), (xv) costs associated with COVID-19, net of benefits received, (xvi) costs associated with (recovery from) the Take 5 Matter, (xvii) EBITDA for economic interests in investments and (xviii) other adjustments that management believes are helpful in evaluating our operating performance.

Adjusted EBITDA by Segment means, with respect to each segment, operating income (loss) from continuing operations before (i) depreciation, (ii) amortization of intangible assets, (iii) impairment of goodwill, (iv) stock based compensation expense, (v) equity-based compensation of Karman Topco L.P., (vi) fair value adjustments of contingent consideration related to acquisitions, (vii) acquisition and divestiture related expenses, (viii) restructuring expenses, (ix) reorganization expenses, (x) litigation expenses (recovery), (xi) costs associated with COVID-19, net of benefits received, (xii) costs associated with (recovery from) the Take

5 Matter, (xiii) EBITDA for economic interests in investments and (xiv) other adjustments that management believes are helpful in evaluating our operating performance, in each case, attributable to such segment.

Adjusted EBITDA Margin with means Adjusted EBITDA from Continuing Operations divided by total revenues.

Adjusted Unlevered Free Cash Flow represents net cash provided by (used in) operating activities from continuing and discontinued operations less purchase of property and equipment as disclosed in the Statements of Cash Flows further adjusted by (i) cash payments for interest, (ii) cash received from interest rate derivatives, (iii) cash paid for income taxes; (iv) cash paid for acquisition and divestiture related expenses, (v) cash paid for restructuring expenses, (vi) cash paid for reorganization expenses, (vii) cash paid for contingent earnout payments included in operating cash flow, (viii) cash paid for costs associated with COVID-19, net of benefits received, (ix) cash paid for costs associated with the Take 5 Matter, (x) net effect of foreign currency fluctuations on cash, and (xi) other adjustments that management believes are helpful in evaluating our operating performance. Adjusted Unlevered Free Cash Flow as a percentage of Adjusted EBITDA means Adjusted Unlevered Free Cash Flow divided by Adjusted EBITDA from Continuing Operations and Adjusted EBITDA from Discontinued Operations.

Net Debt represents the sum of current portion of long-term debt and long-term debt, less cash and cash equivalents and debt issuance costs. With respect to Net Debt, cash and cash equivalents are subtracted from the GAAP measure, total debt, because they could be used to reduce the debt obligations. We present Net Debt because we believe this non-GAAP measure provides useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and to evaluate changes to the Company's capital structure and credit quality assessment.

## Forward-Looking Statements

Certain statements in this presentation may be considered forward-looking statements within the meaning of the federal securities laws, including statements regarding the expected future performance of Advantage's business and projected financial results. Forward-looking statements generally relate to future events or Advantage's future financial or operating performance. These forward-looking statements generally are identified by the words "may", "should", "expect", "intend", "will", "would", "could", "estimate", "anticipate", "believe", "predict", "confident", "potential", "guidance", or "continue", or the negatives of these terms or variations of them or similar terminology. Such forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks, uncertainties and other factors which could cause actual results to differ materially from those expressed or implied by such forward looking statements.

These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by Advantage and its management at the time of such statements, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to, market-driven wage changes or changes to labor laws or wage or job classification regulations, including minimum wage; the COVID-19 pandemic, or any future similar pandemic or health epidemic; Advantage's ability to continue to generate significant operating cash flow; client procurement strategies and consolidation of Advantage's clients' industries creating pressure on the nature and pricing of its services; consumer goods manufacturers and retailers reviewing and changing their sales, retail, marketing and technology programs and relationships; Advantage's ability to successfully develop and maintain relevant omni-channel services for our clients in an evolving industry and to otherwise adapt to significant technological change; Advantage's ability to maintain proper and effective internal control over financial reporting in the future; potential and actual harms to Advantage's business arising from the Take 5 Matter; Advantage's substantial indebtedness and our ability to refinance at favorable rates; and other risks and uncertainties set forth in the section titled "Risk Factors" in the Annual Report on Form 10-K filed by the company with the Securities and Exchange Commission (the "SEC") on March 1, 2024, and in its other filings made from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Advantage assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

## Non-GAAP Financial Measures and Related Information

This presentation includes certain financial measures not presented in accordance with generally accepted accounting principles ("GAAP"), Adjusted EBITDA from Continuing Operations, Adjusted EBITDA from Discontinued Operations, Adjusted EBITDA by Segment, Adjusted EBITDA margin, Revenues net of pass-through costs, Net Debt, Adjusted Unlevered Free Cash Flow and Adjusted Unlevered Free Cash Flow as a percentage of LTM Adjusted EBITDA from Continuing and Discontinued Operations. These are not measures of financial performance calculated in accordance with GAAP and may exclude items that are significant in understanding and assessing Advantage's financial results.

Therefore, the measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP, and should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that Advantage's presentation of these measures may not be comparable to similarly-titled measures used by other companies. Reconciliations of historical non-GAAP measures to their most directly comparable GAAP counterparts are included below.

Advantage believes these non-GAAP measures provide useful information to management and investors regarding certain financial and business trends relating to Advantage's financial condition and results of operations.

Advantage believes that the use of Adjusted EBITDA from Continuing Operations, Adjusted EBITDA from Discontinued Operations, Adjusted EBITDA by Segment, Adjusted EBITDA margin, Revenues net of pass-through costs, Net Debt, Adjusted Unlevered Free Cash Flow and Adjusted Unlevered Free Cash Flow as a percentage of LTM Adjusted EBITDA from Continuing and Discontinued Operations provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing Advantage's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. Non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. Additionally, other companies may calculate non-GAAP measures differently or may use other measures to calculate their financial performance, and therefore Advantage's non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Adjusted EBITDA from Continuing Operations and Adjusted EBITDA from Discontinued Operations mean net (loss) income before (i) interest expense (net), (ii) provision for (benefit from) income taxes, (iii) depreciation, (iv) amortization of intangible assets, (v) impairment of goodwill, (vi) changes in fair value of warrant liability, (vii) stock-based compensation expense, (viii) equity-based compensation of Karman Topco L.P., (ix) fair value adjustments of contingent consideration related to acquisitions, (x) acquisition and divestiture related expenses, (xi) (gain) loss on divestitures, (xii) restructuring expenses, (xiii) reorganization expenses, (xiv) litigation expenses (recovery), (xv) costs associated with COVID-19, net of benefits received, (xvi) costs associated with (recovery from) the Take 5 Matter, (xvii) EBITDA for economic interests in investments and (xviii) other adjustments that management believes are helpful in evaluating our operating performance.

Adjusted EBITDA by Segment means, with respect to each segment, operating income (loss) from continuing operations before (i) depreciation, (ii) amortization of intangible assets, (iii) impairment of goodwill, (iv) stock-based compensation expense, (v) equity-based compensation of Karman Topco L.P., (vi) fair value adjustments of contingent consideration related to acquisitions, (vii) acquisition and divestiture related expenses, (viii) restructuring expenses, (ix) reorganization expenses, (x) litigation expenses (recovery), (xi) costs associated with COVID-19, net of benefits received, (xii) costs associated with (recovery from) the Take 5 Matter, (xiii) EBITDA for economic interests in investments and (xiv) other adjustments that management believes are helpful in evaluating our operating performance, in each case, attributable to such segment. Adjusted EBITDA Margin with respect to the applicable segment means Adjusted EBITDA by Segment divided by total revenues and revenues net of pass-through costs.

Revenues net of pass-through costs and Revenues net of pass-through costs by segment means revenues less pass-through costs that are paid by Advantage's clients, including media, sample, retailer fees and other marketing and production costs.

Net Debt represents the sum of current portion of long-term debt and long-term debt, less cash and cash equivalents and debt issuance costs. With respect to Net Debt, cash and cash equivalents are subtracted from the GAAP measure, total debt, because they could be used to reduce the debt obligations. We present Net Debt because we believe this non-GAAP measure provides useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and to evaluate changes to the Company's capital structure and credit quality assessment.

Adjusted Unlevered Free Cash Flow represents net cash provided by (used in) operating activities from continuing and discontinued operations less purchase of property and equipment as disclosed in the Statements of Cash Flows further adjusted by (i) cash payments for interest, (ii) cash received from interest rate derivatives, (iii) cash paid for income taxes; (iv) cash paid for acquisition and divestiture related expenses, (v) cash paid for restructuring expenses, (vi) cash paid for reorganization expenses, (vii) cash paid for contingent earnout payments included in operating cash flow, (viii) cash paid for costs associated with COVID-19, net of benefits received, (ix) cash paid for costs associated with the Take 5 Matter, (x) net effect of foreign currency fluctuations on cash, and (xi) other adjustments that management believes are helpful in evaluating our operating performance. Adjusted Unlevered Free Cash Flow as a percentage of Adjusted EBITDA means Adjusted Unlevered Free Cash Flow divided by Adjusted EBITDA from Continuing Operations and Adjusted EBITDA from Discontinued Operations.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
