Forward-Looking Statements

Certain statements in this presentation may be considered forward-looking statements within the meaning of the federal securities laws, including statements regarding the expected future performance of Advantage's business. Forward-looking statements generally relate to future events or Advantage's future financial or operating performance. These forward-looking statements generally are identified by the words "may", "should", "could", "expect", "intend", "will", "would", "estimate", "anticipate", "believe", "predict", "confident", "potential" or "continue", or the negatives of these terms or variations of them or similar terminology. Such forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks, uncertainties, and other factors which could cause actual results to differ materially from those expressed or implied by such forward looking statements.

These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by Advantage and its management at the time of such statements, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to, market-driven wage changes or changes to labor laws or wage or job classification regulations, including minimum wage; the COVID-19 pandemic and the measures taken in response thereto; the availability, acceptance, administration and effectiveness of any COVID-19 vaccine; Advantage's ability to continue to generate significant operating cash flow; client procurement strategies and consolidation of Advantage's clients' industries creating pressure on the anture and pricing of its services; consumer goods manufacturers and retailers reviewing and changing their sales, retail, marketing, and technology programs and relationships; Advantage's ability to successfully develop and maintain relevant omni-channel services for our clients in an evolving industry and to otherwise adapt to significant technological change; Advantage's ability to maintain proper and effective internal control over financial reporting in the large of the services of a significant technological change; a bullity to successfully develop and maintain relevant omni-channel services for our clients in an evolving industry and to otherwise adapt to significant technological change; Advantage's substantial indebtedness and our ability to refinance at favorable rates; and other risks and uncertainties set forth in the section titled "Risk Factors" in the Annual Report on Form 10-K filed by the Company with the Securities and Exchange Commission (the "SEC") on March 1, 2023, and in its other filings made from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Non-GAAP Financial Measures and Related Information

This presentation includes certain financial measures not presented in accordance with generally accepted accounting principles ("GAAP"), Adjusted EBITDA and Net Debt. These are not measures of financial performance calculated in accordance with GAAP and may exclude items that are significant in understanding and assessing Advantage's financial results. Therefore, the measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP, and should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that Advantage's presentation of these measures may not be comparable to similarly-titled measures used by other companies. Reconciliations of historical non-GAAP measures to their most directly comparable GAAP counterparts are included below.

Advantage believes these non-GAAP measures provide useful information to management and investors regarding certain financial and business trends relating to Advantage's financial condition and results of operations. Advantage believes that the use of Adjusted EBITDA and Net Debt provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing Advantage's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. Non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. Additionally, other companies may calculate non-GAAP measures differently, or may use other measures to calculate their financial performance, and therefore Advantage's non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Adjusted EBITDA means net income (loss) before (i) interest expense, net, (ii) (benefit from) provision for income taxes, (iii) depreciation, (iv) impairment of goodwill and indefinite-lived assets, (v) amortization of intangible assets, (vi) equity based compensation of Karman Topco L.P., (vii) change in fair value of warrant liability, (viii) stock-based compensation expense, (xi) osts associated with COVID-19, net of benefits received, (xii) EBITDA for economic interests in investments, (xiii) restructuring expenses, (xiv) litigation expenses, (xv) Recovery from Take 5, (xvi) costs associated with the Take 5 Matter and (xvii) other adjustments that management believes are helpful in evaluating our operating performance.

Net Debt represents the sum of current portion of long-term debt and long-term debt, less cash and cash equivalents and debt issuance costs. With respect to Net Debt, cash and cash equivalents are subtracted from the GAAP measure, total debt, because they could be used to reduce the debt obligations. We present Net Debt because we believe this non-GAAP measure provides useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and to evaluate changes to the Company's capital structure and credit quality assessment.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

THE BASICS: WHAT ADVANTAGE DOES

Essential partner to leading brands and retailers, helping clients reach consumers every day, in-store and online, through technology-enabled sales and marketing solutions

ADVANTAGE'S TWO OPERATING SEGMENTS

Diversified across sales and marketing services for CPGs and retailers

Sales Segment \$2.5B (62% of Revenues)

- Leading position in U.S. outsourced sales and merchandising market: provision of essential sales & merchandising services to increase CPG sales in brick-and-mortar and online channels for brands and retailers
- Revenues generated on a commission, fee-for-service, or cost-plus basis

Marketing Segment \$1.5B (38% of Revenues)

- Leader in experiential marketing and critical in-store and online sampling programs
- Agency of record for many of the most recognized brands across the retail, packaged goods, technology, and hospitality industries
- Revenues generated on a fee-for-service, cost-plus, retainer, or commission basis
- Currently lower than pre-pandemic levels as a result of depressed in-store sampling and demonstration volumes; labor environment remains challenged

Competitive advantages across Sales and Marketing Segments driven by scale, talent, and technology, resulting in sticky relationships with long-term blue-chip customers

PRICING OVERVIEW

Mixed bag of pricing power across various businesses and contract types

Commission-Based Sales – CPG product inflation generates commission lift to offset associated white collar wage inflation

Cost-Plus Arrangements – Immediately pass-through wage inflation in price

- Sampling / Demonstration Recoup wage inflation quickly; work and negotiate with retailers and pass through to CPGs
- Merchandising Recoup wage inflation via price potentially absorbing some of the increase in costs temporarily; pass-through lag

Professional / Salary – Recoup wage inflation via price potentially absorbing some of the increase in costs temporarily; pass-through lag

Note: Representative percentages by business / contract type are estimated in nature and subject to change based on business mix in any give time
